

PRODUCT NAME:

ZEOSORB®

COMBINED SCALE PREVENTION MEDIA

ZEOSORB

CERTIFICATE OF NON-OBJECTION

Key Features //

- ◆ Excellent filtration down to < 3 microns
- ◆ High porosity and surface area (> 270 m²/g)
- ◆ Long media life (> 10 years)
- ◆ Lower backwash frequency and reduced water use
- ◆ Increased flow rates in both gravity and pressure systems
- ◆ Environmentally friendly and cost-effective alternative to conventional filter media

ZEOSORB® is an advanced filtration media designed as a superior replacement for traditional sand, anthracite, and multimedia filters. With a filtration capacity of < 3 microns, high porosity, and large surface area, **ZEOSORB®** achieves exceptional turbidity and suspended solids reduction at lower operating costs. Its unique structure ensures long media life and fewer backwash cycles, making it highly efficient for both municipal and industrial water treatment.

ZEOSORB® is certified under: **NSF/ANSI/CAN 61** – Drinking Water System Components – Health Effects and **NSF/ANSI/CAN 372** – Drinking Water System Components – Lead Content

The water treated by **ZEOSORB®** is safe for human consumption, plants, and aquatic life.
