

# FilterSorb MG<sup>®</sup>

PREMIUM SYSTEMS

THE FUTURE OF BIO-AVAILABLE HYDRATION

**THIS SYSTEM SHOULD NOT BE MISSING IN ANY RESIDENTIAL BUILDING IN THE ENTIRE WORLD.**

Because every family deserves perfect water.  
Every home deserves protection.  
Every life deserves better.

## FILTERSORB MG<sup>®</sup> SYSTEM SIZING TABLE

DESIGN RULE : 4 LITERS FILTERSORB MG<sup>®</sup> PER 1 M<sup>3</sup> OF WATER FLOW

| FLOW RATE (m <sup>3</sup> /h) | FLOW RATE (GPM) | FILTERSORB MG <sup>®</sup> MEDIA NEEDED (LITERS) | MEDIA IN GALLONS | RECOMMENDED TANK VOLUME (4-5X MEDIA) (LITERS) | TANK VOLUME IN GALLONS | LIFE EXPECTANCY   |
|-------------------------------|-----------------|--|------------------|---|------------------------|---|
| 1                             | 4.4             | 4 L  | 1.06 gal         | 16 – 20 L                                     | 4.2 – 5.3 gal          | <p><b>5-7 YEARS</b></p> <p>★★★★★</p> <p>Built to last. Engineered to protect.</p> <p>Designed for generations</p> |
| 2                             | 8.8             | 8 L  | 2.1 gal          | 32 – 40 L                                     | 8.5 – 10.6 gal         |   |
| 3                             | 13.2            | 12 L   | 3.2 gal          | 48 – 60 L                                     | 12.7 – 15.9 gal        |   |
| 5                             | 22              | 20 L   | 5.3 gal          | 80 – 100 L                                    | 21 – 26 gal            |   |
| 10                            | 44              | 40 L   | 10.6 gal         | 160 – 200 L                                   | 42 – 53 gal            |   |
| 15                            | 66              | 60 L   | 15.9 gal         | 240 – 300 L                                   | 63 – 79 gal            |   |
| 20                            | 88              | 80 L   | 21.1 gal         | 320 – 400 L                                   | 85 – 106 gal           |   |
| 25                            | 110             | 100 L  | 26.4 gal         | 400 – 500 L                                   | 106 – 132 gal          |   |
| 30                            | 132             | 120 L  | 31.7 gal         | 480 – 600 L                                   | 127 – 159 gal          |   |

**TANK & SYSTEM GUIDELINES**

- Upflow configuration for superior performance
- Tank volume 4-5 times the media volume
- Ensures optimal contact time & longevity
- No backwashing required
- Zero wastewater

**MINIMUM INLET PRESSURE**

**1 BAR MINIMUM**  
**14.1 PSI MINIMUM**

**WHY RIGHT SIZING MATTERS**

- Maximum scale protection
- Consistent magnesium enrichment
- Longer media life (5-7 years)
- Lower operating cost
- Healthier water. Healthier life.

**ONE SYSTEM. ENGLISS BENEFITS. A BETTER WORLD. FOR EVERY HOME.**

**100% CHEMICAL-FREE | ZERO WASTE WATER | SUSTAINABLE FUTURE | GLOBAL IMPACT**
