

THE SECRET OF CELLS

LONGEVA™ WATER BY WATCH WATER®

Inside the human body, something extraordinary happens every second. Each of the 37.2 trillion human cells works like a microscopic power plant. Cells combine oxygen and nutrients to produce energy that keeps us alive.

During this process - called cellular respiration - something remarkable occurs:
Cells actually produce water.

CELLULAR RESPIRATION

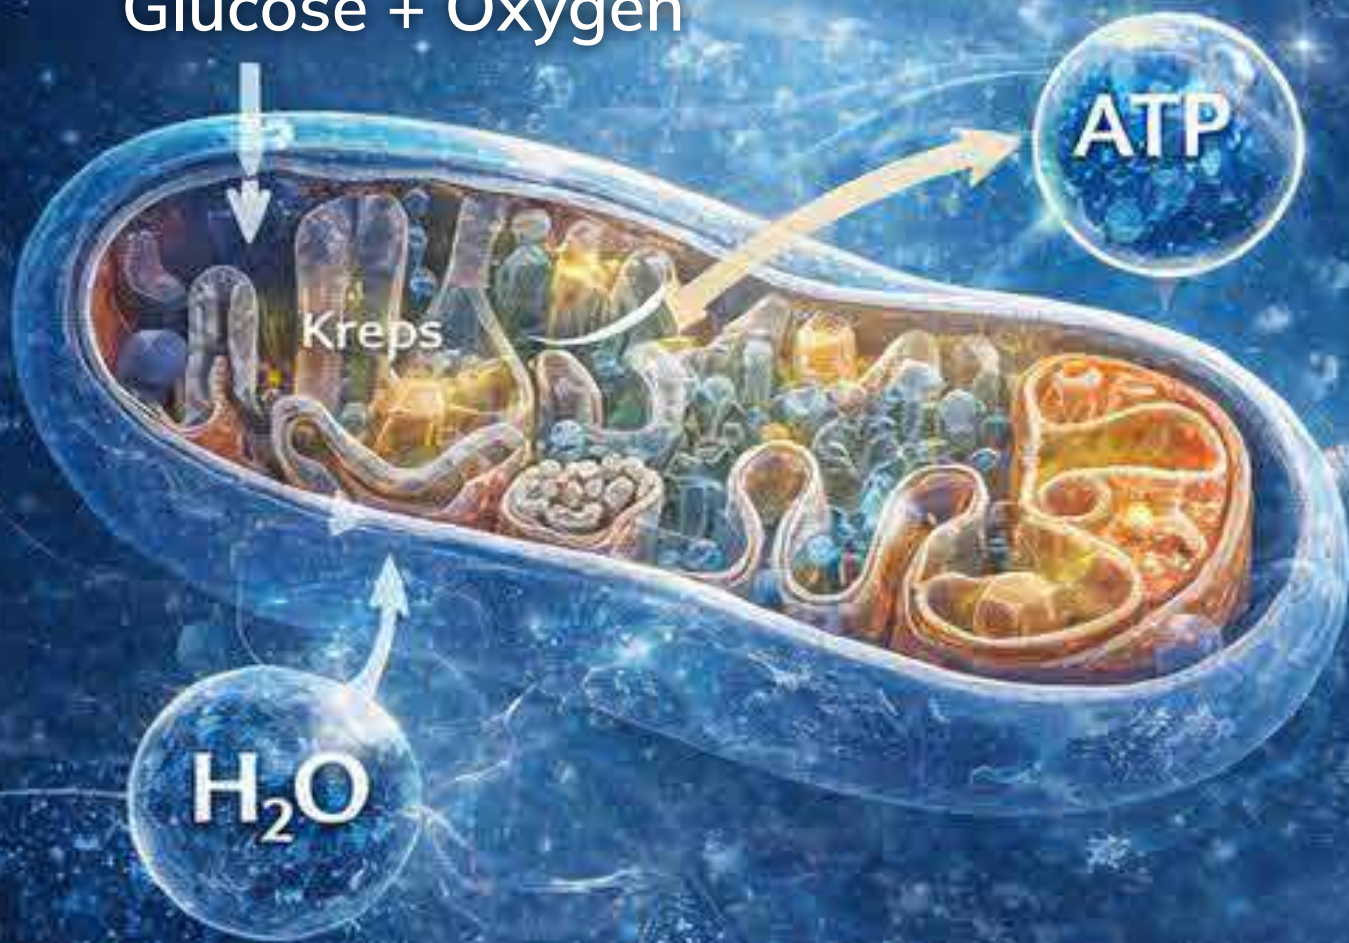

Glucose + Oxygen → Energy (ATP)
Carbon Dioxide → Water

Life itself creates water.

METABOLIC WATER PRODUCTION

Glucose + Oxygen

**WATER IS NOT JUST
SOMETHING WE DRINK.
WATER IS SOMETHING
OUR CELLS CREATE.**

MITOCHONDRIA: ENERGY SYSTEMS

Through complex reactions, mitochondria convert nutrients and oxygen to energy (ATP) and metabolic water.
