

YOUR BODY DESTROYS CANCER CELLS EVERY DAY

THE QUESTION IS

DOES YOUR WATER HELP OR HURT?

Every human body contains
37.2 trillion living cells.

- Every second, millions of these cells divide.
- During this process, tiny **DNA mutations** can occur.
- Some could become dangerous.

**BUT MOST NEVER DO -
BECAUSE YOUR BODY
FIGHTS THEM EVERY SINGLE DAY.**

Your immune system constantly identifies and destroys abnormal cells before they can grow.

You never notice it happening.
Your body protects you silently.

**BUT YOUR CELLS ARE
UNDER CONSTANT ATTACK**

Modern water can contain substances that weaken cellular protection:

- ✓ Heavy Metals
- ✓ Toxic Chemicals
- ✓ Bacteria and Pathogens
- ✓ Environmental Contaminants

**WATER IS THE
FOUNDATION OF LIFE**

The human body is more than 70% water.
Every biological process depends on:

- ✓ Every cell
- ✓ Every organ
- ✓ Every metabolic Reaction
- ✓ Every DNA repair process
- ✓ Chlorine

*If the water is compromised,
cellular health suffers.*

INTRODUCING LONGEVA WATER®

LonGeVa Water® is created using advanced **AquaRedox®** purification technology
Developed by **Watch Water GmbH**, Germany.

BECAUSE THE FUTURE OF HEALTH BEGINS WITH THE WATER YOU DRINK.

WATCH WATER® GmbH

Fahrlachstraße 14, 68165 Mannheim, Germany
