

SCIENCE. IMMUNITY. HOPE.

MAGNESIUM FUELS YOUR IMMUNE SYSTEM TO FIGHT CANCER.

Breakthrough research from the University of Basel reveals that **magnesium** is essential for **T cells** to work effectively – your body’s natural cancer fighters.

WHAT RESEARCH DISCOVERED

MAGNESIUM ACTIVATES T CELLS

Magnesium binds to a key protein (LFA-1) on T cells, keeping it in an extended, active position so it can bind to and eliminate abnormal or infected cells.

STRONGER IMMUNE RESPONSE

Increased magnesium levels in tumors strengthen the immune response of T cells against cancer cells.

BETTER THERAPY OUTCOMES

Immunotherapies were less effective in patients with insufficient magnesium levels in their blood.

PROMISING FUTURE

Researchers are now exploring targeted ways to increase magnesium in tumors to enhance cancer treatments.

LonGeVa™ Water

Made from LonGeVa Media

WHY LonGeVa WATER?

LonGeVa Water Made From LonGeVa Media is designed to naturally support optimal magnesium balance in your body – because your immune system needs magnesium to perform at its best.

ENHANCES MAGNESIUM ABSORPTION

SUPPORTS IMMUNE STRENGTH

EMPOWERS YOUR BODY'S NATURAL DEFENSE

MAGNESIUM: A SMALL MINERAL WITH A POWERFUL IMPACT.

From supporting your immune system to improving the effectiveness of modern cancer therapies, magnesium could be the key your body needs.
