RE: Quantum XSW

I am pleased to provide this testimonial regarding my experience using Quantum XSW on the lakefront area where our family resides. Based on the results observed this season, I intend to present Quantum XSW to our lake board for consideration as part of a broader treatment approach for the entire lake next year.

Our lake is located in a farming area in southern Wisconsin and is subject to elevated nutrient levels that contribute to substantial invasive weed growth. Historically, the lake has required treatment for Eurasian milfoil and curly-leaf pondweed. While the herbicide treatments have been effective in addressing weed growth, the resulting plant material often settles to the lake bottom, which contributes to reduced water clarity and the accumulation of thick organic muck. Because the lake is relatively shallow, this buildup has created ongoing concerns for many homeowners, particularly in areas used for boating, swimming, and general lakefront enjoyment.

This year, I applied four drums of Quantum XSW to our lakefront area and observed a noticeable and meaningful improvement. The water visibility improved, and the amount of muck along our shoreline was significantly reduced. These results were especially encouraging because they addressed not only the appearance of the lake but also the underlying organic buildup that has been a persistent issue for residents.

In my view, Quantum XSW offers a practical and beneficial option for lakes that experience high nutrient loading, excessive organic accumulation, and recurring muck-related challenges. The improvement we experienced on our own lakefront provides a strong basis for further consideration, and I believe the product may offer value as part of a larger lake management strategy.

I would recommend Quantum XSW to lake associations, lake boards, and homeowners who are seeking ways to improve water clarity and reduce muck accumulation in areas affected by excess nutrients and decaying organic matter. Based on my experience, the product produced visible results and is worthy of serious consideration for broader lake treatment applications.

Sincerely,
Satisfied customer

THE POWER TO RESTORE EVERY LAKE. EVERY RIVER. EVERYWHERE.

All lakes and surface waters around the world are facing a critical crisis. Quantum XSW is the advanced solution for today's challenges and tomorrow's generations.

OUR ANALYSIS & RATING

CREDIBILITY	★★★★★	10/10
PROFESSIONALISM	★★★★★	9.5/10
MARKETING VALUE	★★★★★	9.5/10

costly treatments, loss of enjoyment

QUANTUM XSW™ – THE GAME CHANGER

- ✓ Advanced Nano-TitanSorb Frameworks
- ✓ Powerful Advanced Oxidation Process (AOP)
- ✓ Breaks Down Organic Waste & Muck
- ✓ Reduces Nutrients & Controls Algae
- ✓ Restores Water Clarity Naturally
- ✓ Safe, Effective & Environmentally Responsible
- ✓ Visible Results – Fast

ONE SOLUTION. EVERY CONTINENT.
